

APRIL 2022

KIIT MATRIX

A Path to Sanguine Genesis

I am a Promise, I am a Possibility

ABOUT US

KIIT World School, formerly known as New State Academy was established in 1984 founded by the parent society, Vidyapati Sansthan. The society was registered in 1969 under Societies Registration Act - 1860. The founder Principal, Mrs. Satya Kamrah, and Chairman, Dr. Jainendra Kumar, a philosopher, thinker, and world-famous Hindi littérateur, laid the foundation.

The parent society also manages colleges of Higher Education at Gurugram. KIIT College of Engineering, Management College, and KIIT College of Education are prestigious institutions. KIIT College of Education has received 'NAAC' accreditation with an 'A' grade. The school has been giving 100% results in classes X and XII year after year with several meritorious performances. Students have been awarded merit certificates for the Board's highest and are in 0.1% of successful candidates.

The school focuses on providing education to students and empowering them for leading a life that is demonstrative of the school ethos. It promotes an environment to help an individual grow up to be socially responsible, spiritually inclined, intellectually elevated, and empathetic towards people's concerns.

VISION

We have a vision of creating a community of connected, confident, Indian global citizens.

Our goal is to motivate children to learn 'how to learn' with passion and curiosity.

We want students to gain an impetus for lifelong learning and become educated and informed leaders of the future who will collaborate, work and create to improve the quality of life.

Principal's Desk

Dear Reader,

Retracing back to school has somehow made every child and teacher realize their pertinent roles in the teaching-learning space. We, as an institution take extreme pride in welcoming our children back to their abode and will leave no stone unturned to provide a new learning experience.

Rejuvenating hustle bustle and formerly unbearable commotion has made way for a unique space hitherto unknown. Acknowledging and exploring online mode of education has somehow reiterated the significance of offline mode of education and has bestowed us with umpteen opportunities to explore the diverse capacities of a child working towards his holistic development.

Be it subtleties of art or soaring high in performing arts to performing par excellence academically, it is indubitably working to the best of our capacities to bridge the unintentional gap because of the unforeseen pandemic situation. The onus falls on the education sector in general and educators specifically to gear up and accelerate the process of learning and amalgamate art integrated activities in regular classes so as to visualize a new era promising comprehensive growth.

Dr. Sangeeta Bhatia

*The roots of education are bitter but
the fruit is sweet.
- Aristotle*

INSIDE THE MATRIX

Vaccination Drive at KIIT

The greatest wealth is health.

The First Step

KIIT World School organized a vaccination camp in the school premises for students aged between 12 and 14 years to make sure that children are completely safe to be back to the school and enjoy their learning experience. Proper Covid protocols were followed ensuring maximum safety of the students and accompanying parents.

Deworming Drive

Under the National Deworming Campaign, a flagship program of the Government of India under National Health Mission, KIIT World School conducted deworming drive in the campus on April 8, 2022. The drive provided an opportunity to ensure that the children don't miss out and get the benefit of deworming. This is a significant step to improve the health and well-being of school children by reducing Soil Transmitted Helminths (STH) infections.

Workshops & Training Programs

Honing Skills and Competencies

KIIT World School organized a training program for teachers on Pedagogical Skills. The workshop was conducted by Ms Charu Bajaj, Founder and Managing Director of Skills and You, an NSDC certified organization running courses on 'Certification in Teaching Excellence'.

The highly interactive workshop focused on the active teaching learning process and how to include desirable changes in the classrooms. Many interesting and engaging activities and methodologies were shared by Ms. Charu for enhancing the learning experience of students. Addressing the audience, the resource person deliberated upon reciprocal teaching by incorporating thinking aloud and discussion which aid learning as well as cognitive retention and assimilation.

Orientation Of Astronomy Club

Students of KIIT World School attended an orientation workshop of astronomy club for the enrollment to Achievers module Session 2022-23. Young learners were thrilled to perform the activity of creating and launching their own rocket using the technique of air pressure. Students were apprised about various activities to be conducted during the year such as comet kitchen , cardinal directions, hydrobot, virtual observatory etc.

Robotic view of future

KIIT World School organized a Robotics workshop for the students of classes VIII and IX. The workshop was conducted by TechRadiance, an IT Firm. The workshop oriented the students about various peripherals and coding paradigms. The resource person demonstrated numerous real-time robots used during pandemic. The workshop focused on arousing interest of students in STEM subjects and motivate them to build scientific temperament and induce creative thinking.

A Truly Global Connect

KIIT World School, Pitampura organized a workshop on opportunities to study abroad. Students of classes XII got a wonderful chance to explore the options for studying in the United States of America. Representatives from various universities like George Mason, Marian, Drake, Boise State along with two Indian universities like Krea and Atria conducted a workshop in the school campus where they highlighted the courses available for students at under graduate level. The workshop comprised of an interactive session where Mr Girish C. Ballola, CEO and founder-

Gen Next education/ International knowledge Centre discussed the education programs in detail. The students were provided a comprehensive study guide for studying in the USA. They cleared their doubts and queries regarding educational and career options , scholarships, etc. It was indeed an informative session.

Baisakhi Celebration

Celebrating the cultural abundance

KIIT World School celebrated Baisakhi with warmth and zeal. Students presented a cultural performance wherein they showcased the hard work put in by farmers in producing food for us. Apart from this, the event comprised of an enactment depicting the Jallianwala Bagh Massacre where hundreds of innocent men, women, and children lost their lives. There was a soulful rendition of traditional Punjabi folk songs by alumnus, Simarpreet Singh Banga that added sheen to the entire program. KIIT World School celebrated and wished everyone on the auspicious occasion of Basant Panchami on 15 February 2022 and prayed to Goddess Saraswati to bestow everyone with knowledge, wisdom, and intellect. Teachers were dressed in yellow attire and offered prayers to the goddess of knowledge. The atmosphere reverberated with chants of prayers and was filled with positive energy. Dr. Sangeeta Bhatia prepared sweetened rice in yellow hues which is a part of the traditional celebration.

Euphoria 2k22

A jamboree of mirth and merry-making.

Shades of Happiness..

KIIT World School bid a heartfelt farewell to its outgoing batch of class XII in a glittering ceremony held at school campus. From conceptualisation to conduction, everything was handled by students very efficaciously. The festivities began with heartwarming poem recitation by Ananya Aneja which captured the bitter sweet memories of all the years spent at school. This was followed by pulsating dance performances on a medley of songs that mesmerized one and all. The students gave titles to all their teachers paying tribute for mentoring and preparing them. The highlight of the event was the address by Dr Sangeeta Bhatia, Principal who blessed all the students who are going to embark a new journey.

Earth Day

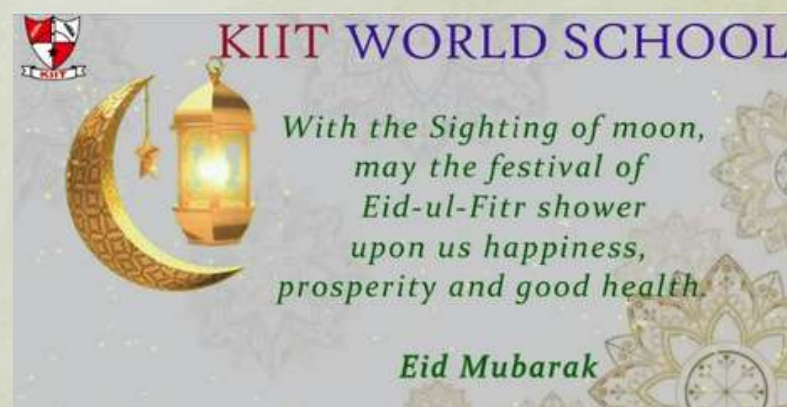

Aligning with the natural forces.

Tribute to Mother Earth

KIIT World School organized Earth Day with pomp and splendour on April 22, 2022, in school premises for the students of classes, VI to XII. A plethora of activities such as slogan writing, poem composition and recitation, quiz, poster making, headgear making, face painting, hand ruffle making, etc were conducted where students participated with great enthusiasm. Apart from this, a tree plantation drive was also organized. Students pledged to invest in the planet and continue putting in their efforts to leave a positive impact around them. The activities were planned to create maximum awareness. Students also motivated their peers to take a step forward in the form of a soul-stirring 'Nukkad Natak'. A rally was taken out on the occasion to proliferate the message of protecting and conserving our Mother Earth in the best possible way and taking action before it's too late.

Commemorating Special Occasions

The more you praise and celebrate your life, the more there is in life to celebrate.

- Oprah Winfrey

Intra School Events

There is always more to see.....

Quiz

A quiz competition was held at KIIT World School by Mindwars, Zee Media. Students of classes VII to X participated in the event comprising two rounds.

The first round had multiple-choice questions. On the basis of their performance in prelim round, 12 students were shortlisted for the final round. These finalists were organized into six teams of two members each. This round had questions displayed on projector for which participants had to freeze correct answers. The winning team was felicitated with exciting prizes. All the finalists were given merit certificates. This was a highly knowledgeable experience for all the participants.

The Art of Story Telling

"A good story can imbibe the right values in the most impressionable age."

To encourage the skills of listening and reading, KIIT World School organised a Storytelling Competition for the students of Class VI-X. The event comprised of wonderful tales told by participants using various props and costumes that added sheen to the event. The audience lauded the story tellers for infusing life and expression in abundance through their voice modulation and imaginative streak. The competition was judged by Dean of Academics, Ms Sanjana Varman and Admin Head, Ms Manreet Kaur.

Club Activities

With the prospect of living up to the vision of a fun-filled Saturday, diverse club activities were diligently planned and executed. The teachers supervising club activities ensured to instill willingness and enthusiasm in students to participate whole-heartedly. The club planned specific theme-based activity. Eco Club organized a Tree Plantation Drive ensuring students acknowledge the importance of planting trees. Performing Arts Club held its Orientation enhancing their knowledge pertaining to performance and arts in general. Heritage Club carried out Flash Card Making. Students learnt the art of stroke drawing in Calligraphy Club.

Students were ecstatic when they performed their favourite English song and spoke about their association with the song in English Literary Club. Culinary Club students indulged in making sumptuous Watermelon Mojito and Sprout Salad. Health and Wellness club dwelled on reiterating the significance of First-aid box. Legal Literacy Club students learnt slogan writing apart from grasping some fundamental Legal principles. The club activities were carried out with zeal and vigour.

*The way a team plays as a whole
determines its success...*

Nostalgic Moments

KIIT World School graciously hosted the stalwarts in its veteran faculty members Ms Meeta Purkhayastha and Ms Nirmala Gopinathan . They had laid the solid foundations of Science and Mathematics Department in the school. It was a nostalgic moment for all as they reminisced the good old days. The highlight of the meet was 'then and now' moment with the experts and current HODs in a single frame.

Assemblies

Leading through Connections

KIIT World School welcomed the children with open arms on the first day of session 2022-23. The excitement of being back to school could be seen on the faces of children as they gathered for the welcome assembly presented by the students of VIII A.

Continuing with the custom of community engagement, the school invited its alumni Ms. Nishtha Nangia and Mr. Vansh Mangla along with parents. Both the alumni thanked their alma mater and advised the students to make the most of the opportunities provided during their school years. Addressing the audience, Ms. Sanjana Varman, Dean of Academics, blessed everyone with her awe-inspiring words.

She emphasized on using three golden words - Sorry, Please, and Thank You. She urged the students to use them often and make the school environment more congenial. Dr. Sangeeta Bhatia, the Principal shared expectations from students and invited the new class teachers onstage and introduced them. There were cultural performances that kept the energy levels of the audience high throughout.

Asthma Awareness

Students of VIII B presented a special assembly to make the audience aware of Asthma, a non-communicable yet life-threatening disease. To explain the symptoms, causes, and effects of asthma on the human body, a role-play was presented by the students. They also performed yoga asanas that help in controlling the disease. Dr. Bhatia, the Principal shared her personal experiences of how leading an active lifestyle helped her keep her asthma in check. The school had invited its alumnus, CA Sakshi Garg, who shared her journey to success and inspired the younger lot.

Assemblies

Practicing Sportsmanship

KIIT World School observed International Day of Sport for Development and Peace. Students of VIII C organised a special assembly on the theme, highlighting the importance of sports in spreading harmony and solidarity among people along with promoting fitness and well-being. Many physical activities were performed during the assembly like various yoga poses, skipping and zumba dance to encourage the students to pay attention towards physical fitness.

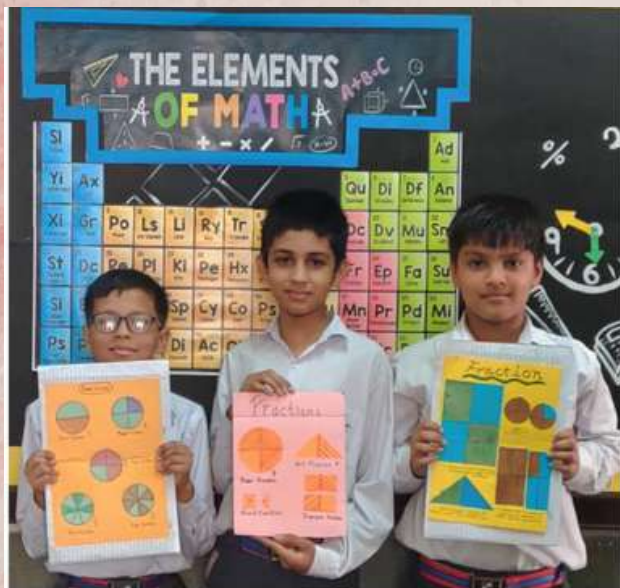

Health is Wealth

Students of VIII D presented a special assembly on the occasion of World Health Day highlighting the importance of physical, mental, emotional, and spiritual well-being. Apart from this, the assembly focused on adopting sustainable practices for conserving our planet.

*"The key to a healthy life is having a healthy mind."
- Richard Davidson*

Mathematics

A Therapy to Mind

Art Integration in Mathematics

Students of classes VI and VII were given the task of finding the fraction of the shaded portion of any emoji of their choice using graph sheets and coloured paper. Students were engaged in this creative group activity for a deeper understanding of the concept.

Mathematics is the most beautiful and the most powerful creation of the human spirit.
- Stefan Banach

Learning BODMAS the fun way

Learning Mathematical concepts through art.

Students unleashed their creativity and imagination where they engaged in various activities and made props like making codes for decoding the names, representation of fractions on number line, creating BODMAS charts, to name a few.

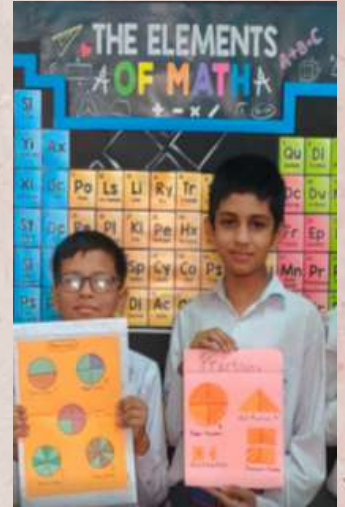

Mathematics

A Therapy to Mind

Experiential Learning

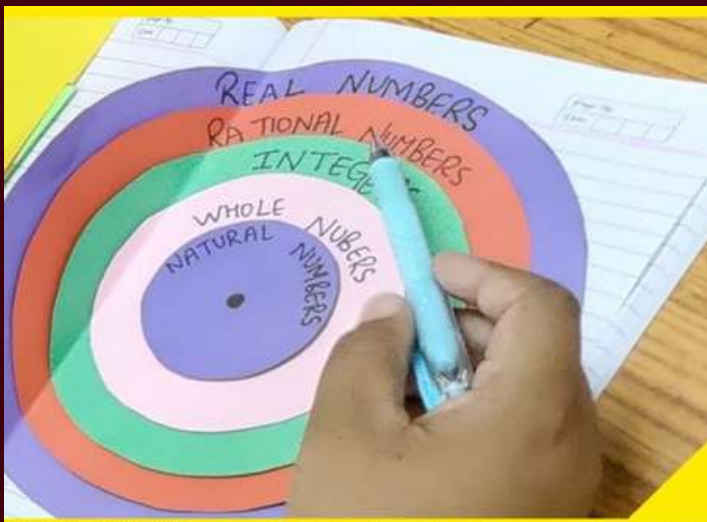

Students of VI and VII were given the task of finding fraction and decimal fraction of the shaded portion of any emoji of their choice using graph sheets and square paper. They came up with wonderful ideas to present the concept.

Students of class VIII Prepared Fraction Wheel Models and presented the same to their friends. Students were given the opportunity to teach their friends about fractions and their types. It was a blend of flipped classroom and Model presentation, which favoured in achieving the learning outcome and developed interest of the students in the subject.

Mathematics – The Music of Reason

Students of class VIII were given the task of showing relationships between different kinds of numbers using a venn diagram. Students created beautiful venn diagrams in a very creative manner and learnt the relationship between various types of numbers. They also taught the relationship to their friends during the peer tutoring session. Students enjoyed the activity and cleared their concepts well.

"Math is the tool specially suited for dealing with abstract concepts of any kind and there is no limit to its power in this field." - Paul Dirac.

Science

A magic that's real..

Experimentation

Students of class VI performed an activity to know about various parts of a flower. They dissected the flowers brought by them and presented their findings according to their quality circles. This was a hands-on learning activity where they came to conclusion on their own.

Science is a way of thinking much more than it is a body of knowledge.

- Carl Sagan

Science - The Poetry of Reality

First Visit of class VI student to the school laboratory.

Students showed enthusiasm and learned about various types of apparatus used in the labs. Quality circle heads demonstrated and explained apparatus used in the laboratory and its function. Students observed and wrote about it in their lab manual. They were also told about the do's and don'ts while experimenting in the lab.

Triangle of Triads

Students of class X analyzed the set of elements and created Dobereiner Triads along with its verification. They arranged the elements in a triangular form and verified the similarity as stated by Dobereiner. This also interlinked the concept of Arithmetic progressions in mathematics. Interlinking Mathematics and Science enhanced their learning process. This skill building process enables a child to develop interest in Science.

Science

A magic that's real..

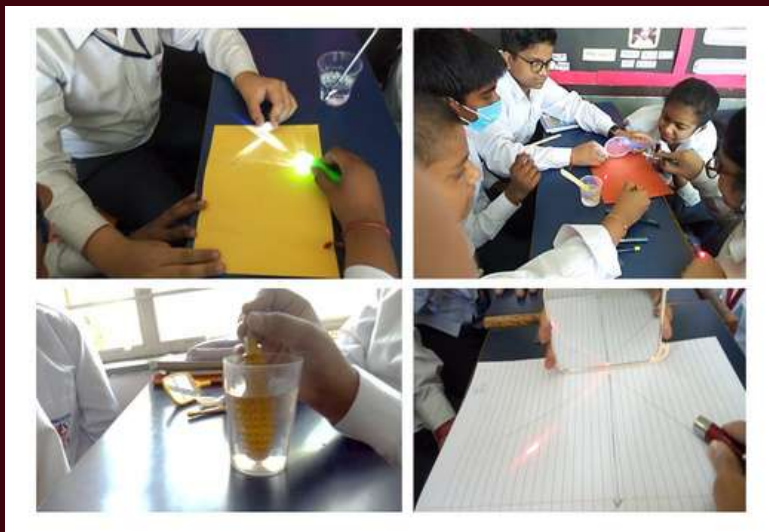

Bridging the Gap

An article submitted by Ms. Garima Bhutani, KIIT World School was published in NPSC annual book which had selected works of educators to promote learning in today's scenario. The chapter was based on "MINING THE SKILLS-NEW NORMAL FOR EDUCATION". The key focus was on strategising the learning techniques keeping in mind the current scenarios of new normal.

Introduction to Laws of Light

"Nothing can disappear without a trace. Nature does not know extinction. All it knows is transformation."

Students performed an activity and verified the law of reflection and refraction, by using various materials like mirror, pencil, container, coloured sheet, etc. They learned that reflection is the bouncing back of light when it strikes a smooth surface whereas refraction is the bending of light rays, when it travels from one medium to another.

Experiential Learning

Students of class VI conducted an experiment to show the presence of carbohydrate in food samples. Students brought food samples like raw and cooked potato, rice, milk, curd, cheese, etc. One representative from each Quality Circle performed the experiment by adding a few drops of iodine solution in the test-tube. The change in colour of solution to blue confirmed the presence of starch.

Social Science

Connecting the threads...

Recollecting the Past

The students of class VI were engaged in Flash Card making activity to help them learn about sources of history. They researched about coins, monuments and manuscripts to understand the sources of history.

Anybody can make history. Only a great man can write it.

- Oscar Wilde

Mindful Listening

Listening is an art that requires attention over talent, spirit over ego, others over self.

Students of class VI practiced the art of mindful listening and peaceful meditation to enhance their concentration. Keeping the thought in mind that one can bring out the best only when one has inner peace, the students felt calm and composed after the activity.

Solar System - A Mystery

Students of class VI learnt about Earth and Solar System through a model. They discussed about the rotation and revolution of different planets, their satellites and other heavenly bodies. It was a flipped session where students shared their previous knowledge and interesting facts about universe.

Social Science

Connecting the threads...

Fabric Painting

Students of class VII turned into little artisans as they practiced Fabric painting alongside learning how the fabric that they wear, is made, printed and later sold in the market. Students participated enthusiastically in this activity as they could unleash their creativity and created unique and beautiful designs on their shirts, pillow covers, handkerchiefs, and cushion covers

Exploring the World

Students of class IX did research work on different cities of France. They presented the same on A3 size sheet along with map. They also got an insight about the causes of French Revolution and how it spread to the other parts of Europe, and eventually to the world. All this was depicted by them on the map, widening their conceptual understanding.

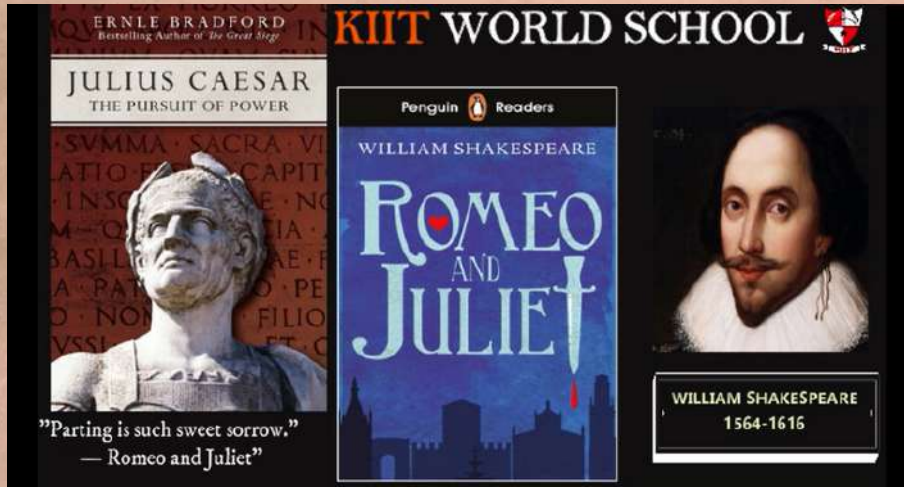

Getting the Right Nutrition

Students of culinary club made Watermelon Mojito and Tangy Tomato Sprout Chaat. Apart from learning the nutritional values of the ingredients used, students also learned how to present food in a proper manner. This activity helped them in grasping the nuances of basic kitchen skills.

English

Shakespeare's Day

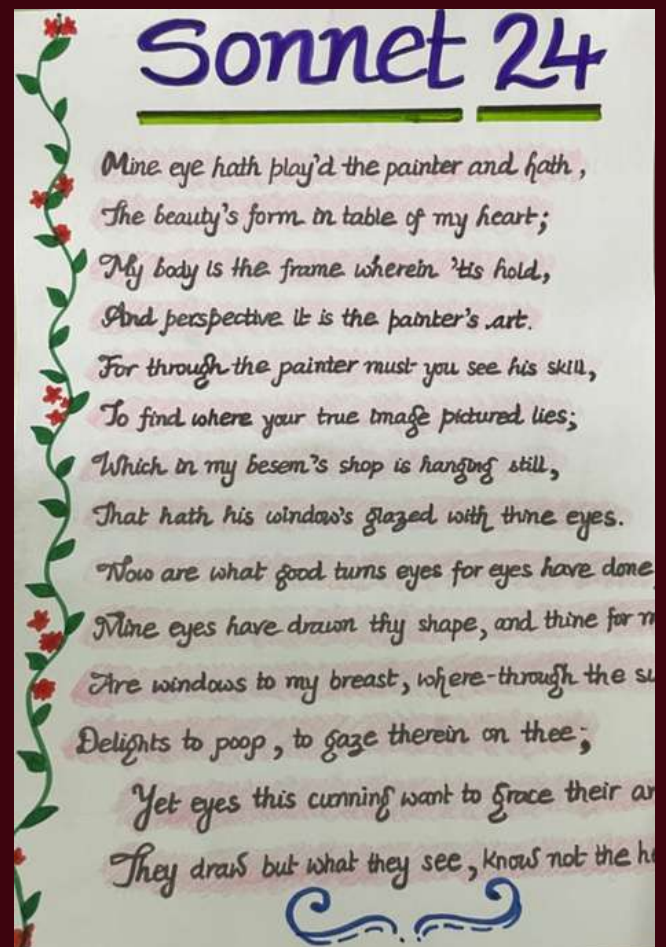

"Sweet are the uses of adversity which, like the toad, ugly and venomous, wears yet a precious jewel in his head."

- As You Like It

The cult of William Shakespeare is firmly established in the literary world and his everlasting appeal may be explained in one sentence: he understood human nature. In an era sans the professional study of psychology, when entertainment did not have to provide food for thought, he showed life on the stage as vividly and spontaneously as it was occurring beyond it.

To commemorate this timeless author's legacy, KIIT World School organized a myriad of activities based on his works and times. Students of classes VI to XII were engaged in collage and mask making, writing famous Shakespearean quotes, role plays, and enactment. There was a special movie screening on the life and works of one the greatest playwrights in English with an aim to inform the students as well as fuel their interest in the enigma that is Shakespeare!.

Hindi

राष्ट्रीय एकता की कड़ी

कक्षा आठवी के छात्रों से पर्यायवाची, विलोम तथा अनेकार्थी शब्दों के प्रवाह चार्ट बनवाए गए। प्रवाह चार्ट पर बहुत ही रोचक तथा रचनात्मक ढंग से पर्यायवाची शब्दों, अनेकार्थी शब्दों और विलोम शब्दों को सुन्दर प्रकार से समझ कर लिखा वास्तव में इस कक्षा के छात्रों का यह कार्य सराहनीय था

इस प्रवाह चार्ट के माध्यम से बच्चों का शब्द भंडार विस्तृत हुआ पुनः इस गतिविधि के द्वारा उनके पर्यायवाची, अनेकार्थी एवं विलोम शब्द के ज्ञान से स्पष्टता आई।

विषय संवर्धन गतिविधियां

कक्षा सातवी में 'मेरा परिचय' विषय पर गतिविधि कराई गई जिसमें सभी बच्चों ने उत्साहपूर्ण तरीके से गतिविधि को पूरा किया। जिसके द्वारा छात्रों की वर्तनी शुद्धि, हिंदी भाषा में परिचय देने का आत्मविश्वास एवं हिंदी भाषा के उच्चारण में वृद्धि गतिविधि को बच्चों ने बड़े रोचकपूर्ण तरीके से पूरा किया।

कक्षा नवी के विद्यार्थियों को भारतीय मुद्रा में दी गई विभिन्न भाषाओं के माध्यम से उनकी लिपियों से अवगत करवाया गया। बहुत ही उत्साह पूर्वक छात्रों ने गतिविधि कर अपने लिपि ज्ञान, भाषा कौशल, एवं रचनात्मक सोच को विकसित किया, उनकी रचनात्मक कला इन चित्रों में देखी जा सकती है।

Computer Science

The calling card of the future.

ATL Innovation – Smart Blind Stick

"Technology, like art, is a soaring exercise of the human imagination."

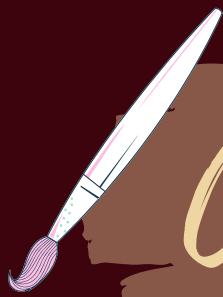

A prototype was prepared by two students Krrish Bansal and Nakul Mittal of class XII-A. They created a smart blind stick that can be used to avoid colliding with obstacles. It uses ultrasonic sensors to detect the depth below or the obstacle in between. Bluetooth interface between the controller and smartphone is introduced to make it easier for visually impaired people. It detects the distance from the obstacle and sends it to the controller. The device is portable, efficient, pocket friendly, futuristic and consumes lesser power.

Smart Traffic Light

A system of smart traffic lights was designed by Manit Vig of Class XII that use cameras and AI to record the traffic flow and if any violations of traffic rules are observed. The cameras that are already installed to monitor traffic violations are used for this purpose.

The system uses computer vision and deep learning classifiers to identify and count the vehicles in front of the traffic lights. This gathers data regarding how many cars stand in front of the traffic signals while it is red and how many pass through while it is green. The averages of these datasets can give us the traffic density a signal is catering to at any point during the day. The algorithm then uses the ratios of these averages to calculate the appropriate Time period for the traffic light. Longer green signals if more traffic is present and vice versa, some upper and lower bounds are in place to avoid Time period becoming zero. This allows for the traffic light to adjust according to the traffic conditions in almost real-time, saving people's time and fuel.

There is no better place or love than to be there in the laps of Ganga

Livelihood near Ganga It's been a month since my father left for his peace to the place where the supreme resides, and I wouldn't be lying when I say, one person left for his peace meanwhile leaving everything behind in distress. Earlier when he was with me, I had no time to feel but seems like now I have to invest my time somewhere to feel less. "Kriday, You may go to Varanasi for a few days. Your father used to be very fond of his native place. Spend some time there with your grandparents, take a break for now." my mother said. Ah yes, Varanasi is the place I natively belong and as my father would say, "There's no place or love better than to be there in the laps of The Ganga" He was very fond of that place, but life moved on and so did we, rushed to the smart cities leaving memories behind and making more and more ahead. I had a train at 6 a.m. and went back to the place where my father's heart still resides and I was being welcomed by a mischievous being, the monkey. He liked my spectacles more than I do, but I guess that could have at least waited till I reach home. Be very aware of the monkeys! well, there are many here and most of them are trained as well. The monkeys do anything from picking up trash to delivering breakfast and yes also, snatching your spectacles too. The city has a lot to say,

The history, the structure, the lifestyle, the language everything just has a lot to say for those who can hear it out. Precision is your worst enemy in Varanasi. If you ask the time, you may get a poem in return, and that is what the best part is, people tend to romanticize everything, even their sorrows or even the simplest of things

Here when you meet the people on the streets no matter if you are meeting for the first time, They'd treat you like as if you are a long lost brother, who came back to their home and one such person just met me, the tuk-tuk rider treated me like his own brother and told stories about him and the place throughout the ride, till I reached my place. A sudden nostalgia strikes and I remember those bedtime stories of my father and him growing in the place And as I went through the streets of Varanasi, I saw my father in his teenage, moving along with me with a stick in his hand and that circular cycle tire, which he kept pushing while maintaining the balance. I reached home, and I saw those rooms covered with those four walls where my father grew up.

*The Ganga is more
than a river. She is
the holy mother.
- Ronal Barrett*

The rusty table and his bookshelf with those books containing dust and a picture of him and my mother at the river Ganga, that clings onto the wall. He specifically loved the terrace of our house, where he'd stand in his twenties, talking to mom over calls and taking a walk alongside. Now when I stand exactly here, I see the whole Varanasi in front of me and I couldn't deny the fact anymore, I do resonate with my father a lot and guess I would spend some more time here. All this while, I was afraid to visit at the Ganga, thinking I might break down and cry with the feelings inside me but then Ganga herself called me out, while I was on the sharing tuk-tuk and my fellows wanted to go there, while I wanted to go the market ahead and the tuk-tuk exactly failed to move any longer near the banks of the holy river. The rider asked me to shift to some other tuk-tuk but I guess I mustered up the courage and went towards the river instead. overwhelmed? yes. The water of the river has been called as 'water of immortality due to its extraordinary quality. Hindu believe that the Ganga water has healing power, it removes skin diseases and elongates life. I dipped my hands into the water and I fell into that moment, I felt my father was beside me, drinking the water. He looked at me smiling and that's when I believed the power of Ganga's healing. I heard my father saying, "There's no better place or love than to be there in the laps of Ganga"

The little Joy of my Life

The freshness of the new day.
The absolute green of the valley
And those blooming tulips.
As if they are the magnets
Attracting me to the oblivion.
As if they are my save to a hectic day.

But then why ?
Why does it feels
As if it's going away,
Slipping from my eyes.
It feels as if I would never
See my heaven again.

And it pains ,
Pains like I have lost a beloved one
And it pains me that a day would come
Where my saviour,
My safe heaven would cease to
exist one day.

-Ashmeet Arneja
(XII D)

Let Me

Let me stand beside you now,
I saw you standing in the corner sole.
I may never have have cried with you,
but I saw you sob alone in the attic.

Let me walk beside you now,
I saw your shoe soles have worn out how.
I may not be able to give you mine,
but I will keep you company while you dive.

Let me be your buddy now,
I saw you staring at the darkness alone.
you may not like my company now,
but I will stay with you.

Let me hold the door for you now,
for your will torn under the weight of a story.
After everything you've walked through,
it's the least I can do.

-Nishtha Malik

KIIT in Media

Work that captivates.....

A day full of excitement

With the prospect of living up to the vision of a fulfilled Saturday, diverse club activities were diligently planned out and executed at KIIT World School. The teachers supervising club activities ensured to instill a willingness and enthusiasm in students to participate wholeheartedly.

The club took up particular themes and planned specific theme-based activities. Eco-Club organised a tree plantation activity ensuring students acknowledge the prominence of planting trees. Performing Arts Club held its orientation enhancing their knowledge of performance and arts in general. Heritage Club carried out flashback making.

Students learned the art of stroke dancing in the calligraphy club. Students were ecstatic when they performed their favourite English song and spoke about their peculiar association with the song

in the English literary club. Culinary club students indulged in making scrumptious watermelon mojito and sprout salad. Health and wellness club dwelled on reiterating the significance of the first aid box. Legal literary club students learned slogan writing apart from grasping some fundamental legal principles. The club activities were carried out with zeal and vigor.

Plethora of activities mark Earth Day celebrations

KIIT World School organised Earth Day with pomp and splendour on April 22 on school premises for students of classes VI to XII. A plethora of activities such as slogan writing, poem composition,

to invest in the planet and continue putting in their efforts to leave a positive impact around them. The activities were planned to create maximum awareness. Students also motivated their peers to take a step

ion, recitation, quiz, poster making, headgear making, face painting, hand ruffle making, etc. was conducted where students participated with great enthusiasm.

Apart from this, a tree plantation drive was also organised. Students pledged

forward in the form of a soul-stirring 'nukkad natak'. A rally was taken out on this occasion to proliferate the message of protecting and conserving our mother Earth in the best possible way and taking action before it's too late.

KIIT World, Pitampura, creates awareness about environment

KIIT World School, Pitampura, celebrated this day with pomp on its premises for the students of Classes 6 to 12. The school conducted various activities such as slogan writing, poem composition & recitation, quiz,

poster & headgear making, face painting, hand ruffle making, etc. The students took part in those activities with zeal. A tree plantation drive was also organised.

The students pledged to invest in the planet and continue putting in their efforts to leave a positive impact around them. The activities were planned to create maximum awareness. The students also motivated their peers to take a step forward through a soul-stirring nukkad natak (street play). They also took out a rally to spread the message of protecting and conserving Mother Earth in the best possible way and acting before it's too late.

A plethora of activities were organised by the school for the the students of Classes 6 to 12.

KIIT World School, Pitampura, felicitates its faculty members

KIIT World School, Pitampura, graciously felicitated its veteran faculty members Meeta Purkhayastha and Nirmala Gopinathan.

The faculty members were felicitated for laying the solid foundations of science & mathematics departments in the initial years of the school

Both of them had laid the solid foundations of science and mathematics departments in the initial years of the school. It was a nostalgic moment for all as they reminisced the good old days. The highlight of the event was the 'then and now' moment with the experts and current HODs in a single frame.

Principal's Charter

I will respect all KITians as my colleagues and not assistants.

I will know my team and care for them beyond school situations and feel responsible for their welfare.

I will never make a weakness of any member as a weapon.

My observation of the team will always be objective and appreciation will hinge on the performance- behavior graph.

My expectations from my stakeholders will be directly proportional to my behavior.

I will try that every interaction with my team is proactive instead of reactive.

I will continue to learn and update myself.

I will strive to make KIT a safe, secure, friendly and happy workplace.

I will promote healthy habits and focus on holistic growth and development of mind, body and soul.

I will maintain a healthy relationship with community and external agencies to raise connected global citizens.

I will create a learning community with a collaborative culture to connect everyone with the vision of KIT.

I will take every suggestion, criticism and input in an unbiased manner to improve the system.
